Alexander is a certified Emergency Medical Technician with over 10 years of public safety experience in both the public and private sector.

As an EMT with Lifeline Ambulance Service, Alexander provided emergency medical services and inter-facility transport to approximately 5,000 patients. He has an extensive background in safety, emergency medical operations, biohazards and infection control and decontamination. He planned and implemented a MedCor program to prevent the importation and spread of communicable diseases at BioGen in Cambridge. Alexander was also integral in the training of all new EMTs for the company.

A devoted educator, Alexander was an English as a Second Language Instructor for over 4 years, creating effective lesson materials that were critical to the students' progress. He is also a certified American Red Cross Instructor.

In his current role as Director of Client Management, Alex is the liaison between OccuMed and the client. He is responsible for building strong client relationships and assisting key operational decision-makers in maintaining the highest level of customer satisfaction. He manages the scheduling of our operational team to ensure high customer retention and satisfaction across all assigned clients.
